WE FINALLY HAVE A WAY TO  
DO SOMETHING ABOUT THE  
MANDATORY VACCINATION ISSUE!

## SAY NO TO MANDATORY VACCINATIONS – HIGH COURT CHALLENGE

**FORCED  
FLU JAB?**

**COMPULSORY  
COVID VAX?**

- We are trying to quickly raise \$10 million to challenge the laws that have been introduced across the country that make vaccinations mandatory. This will be a High Court challenge.
- The costs involved in this case are enormous. They will involve challenging State Governments in each State of Australia, as well as the Federal Government.
- These laws affect people that work at and visit aged-care facilities.
- These laws will also affect people who work in the health services industry.
- It is likely that governments will make a COVID-19 vaccination mandatory, once a vaccine is available.
- If that happens, mandatory vaccinations will apply across the entirety of the Australian community.
- What we want to do is stop governments controlling people's lives, and protect an individual's right to decide whether to have a vaccination.
