THE COVID-19 FRAUD & WAR ON HUMANITY

Abstract

COVID-19 is a fraud because its alleged causal agent, a purported novel coronavirus called SARS-CoV-2, has not been proven to exist in nature and therefore has not been established as the cause of COVID-19, the disease and pandemic invented by the World Health Organisation (WHO). For the selfsame reason there are no variants of the “virus”, which likewise exist only hypothetically in computers, cloud-based gene banks and in the minds of innocent people who have been comprehensively gulled by their governments.

The COVID-19 fraud, comprised of numerous preposterous claims, constitutes nothing less than a war on humanity by organisations such as Anser, Fors Marsh, and Palantir that conduct the scam through Big Pharma, with its backers and enablers, including the World Economic Forum, the Bill and Melinda Gates Foundation, the WHO, technology conglomerates, the mainstream media, complicit governments, and COVID “pirates” such as UNC Chapel Hill and Imperial College London, to a one beneficiaries of the fraud.

COVID-19 is a crime against humanity because politicians and their governments continue to use this imaginary disease to terrorise and imprison their citizens, denying them guaranteed human rights and freedoms, and violating their once inviolable bodies with highly experimental and hazardous injections that contain a computer-generated spike protein mRNA sequence that instructs the body to poison itself. These nefarious injections, which also contain undeclared non-biological objects for undeclared purposes, are injuring millions and killing many thousands of people around the world, including up to 218 New Zealanders as at 2 October 2021.¹

A virological fraud lies at the heart of these crimes against humanity – that SARS-CoV-2 has never been physically isolated or shown to be the aetiological (causal) agent of COVID-19. In this article, the authors examine the illusory world of virology to explain how a virus that no one has seen or knows where it has come from, that no one knows what it does or where it is going, is, according to the fraudsters, stealing across borders and boundaries and coming to get you no matter where you are. How can it be, the authors ask, that this phantasmagorical madness has morphed into a world redolent with fear in which democratic governments have abandoned democratic principles to engage in the control and “deletion of human beings” that may be just a “variant” away from turning into World War III?²

Total reported adverse events for these three regions are 6,479,563 and total deaths are 44,013. Given the known under-reporting of such events, it is anticipated that the actual numbers could be at least five-fold higher.
